

Making Hearts Beat in America

Hospital Corporation of America | August 2018 - Present

Problem Statement: Mobile Heartbeat was trying to connect and mobilize clinicians and operational staff across the healthcare enterprise by **unifying all of the communication and collaboration tools** needed for high-quality care in one platform, enables users to **connect with the right people at the right time.**

Tangentia's Solution: Tangentia maintained **five offshore scrum teams**, practicing **SAFe**, working closely with Mobile Heartbeat's scrum teams based out of Boston, US

Our Impact: MH-CURE Core Framework is being **managed** and **maintained** by Tangentia's scrum teams.

Highlights: Tangentia introduced '**Spotify**' lead development practice across multiple scrum teams.
